

# Centuris™ Pro bed with split siderails

A cost-effective solution for quality care

## Features and benefits

**AutoContour™ and Sliding Backrest** minimise patient migration in bed, reducing abdominal compression during bed articulation

**Line-Of-Site™** backrest indicator provides accurate patient positioning information for caregivers

The lowering of the **split siderails** can be activated using one hand and feature a smooth, rapid self-lowering mechanism allowing for quick access to patients

**Easy-to-grip split siderails** provide stable and secure support, enabling safe and independent patient egress

**The Trendelenburg/Reverse Trendelenburg function** facilitates easier patient repositioning

A **220 kg Safe Working Load** accommodates a greater range of patients

**Pendant control with intuitive iconography** enables functional operations with ease

**150 mm single band castors including steering castor** allow for ease of manoeuvrability

**Braking on all four castors** enhances patient safety

**Caregiver control with total functional lock-out** offers enhanced operational safety
